RECOMMENDATION LETTER

To: Christian Aid

We are pleased to recommend the Goffa Zone Development Association (GoZDA) for a joint application with Action for Development and Social Change (ADSC) under the Youth Voice and Agency for Inclusive Governance in Goffa Zone initiative.

GoZDA is a legally registered civil society organization with the Authority for Civil Society Organizations (ACSO), established by the people of Goffa Zone to address local development challenges. It is also one of the emerging CSOs selected by our organization for institutional capacity development support.

Our assessment found that GDA has a broad constituency, strong leadership, and practical experience in implementing community development projects, particularly in agriculture, climate resilience, and food security. These strengths make the Association a credible and reliable local partner.

We therefore confidently recommend GDA as a capable partner for the proposed initiative and believe it will make a valuable contribution to promoting youth voice and inclusive governance in Goffa Zone.

Sincerely,

For Kussia Bekele
Executive Director
